BLOOMING INNOVATION

A new year brings fresh ideas, inspiring varieties, and bold steps in sustainability. Our Pot & Bedding team has been working hard to develop unique new collections and further strengthen our CSR strategy – for example, by creating varieties that need less or no growth regulators.

This year, we are excited to introduce two standout collections that will inspire growers and retailers alike:

Coupe Royal: beauty and simplicity

With the Coupe Royal collection, you can combine different pot chrysanthemums in one bowl, pot, or display to create an instant visual spectacle. Each mix features carefully selected varieties that grow evenly together, ensuring a uniform and abundant bloom. From airy single-flowered types to lush double-flowered combinations, vibrant Artistic varieties, striking pompons, and beautifully harmonious arrangements – Coupe Royal offers endless possibilities.

Tiara: The Royal Aster

A new star has risen in our Aster assortment: Tiara, the renewed single-flowered Aster series from Royal Van Zanten. With elegant open blooms and fresh colors – white, pink, lilac, and purple – Tiara brings a modern, authentic look that fits today's demand for simplicity. Winter-hardy like the Showmakers, Tiara ensures a long-lasting and reliable presentation on the shelf or in the display. Tiara perfectly complements our robust double-flowered Showmakers, offering a complete and versatile Aster assortment.

Taking action, making a difference

For the second time, we planted four hectares of native trees in Uganda, supporting the restoration of biodiversity and creating a positive impact on both the environment and the local community. This initiative is just one example of how we continually strive to improve our sustainability practices and take responsibility for the future. For more insight into our efforts, you can consult our Corporate Social Responsibility report on our website.

Cultivating your success

In this catalogue, you'll discover our full Pot & Bedding assortment. We aim to support you in choosing the varieties that best fit your growing methods and business goals. For inspiration, practical tips, or further information, don't hesitate to reach out or explore our platform What's Blooming Today®.

A close-up photograph of several pink chrysanthemum flowers. The petals are numerous, layered, and have a delicate, ruffled texture. The color is a soft, vibrant pink. The background is dark and out of focus, making the flowers stand out. A semi-transparent white rectangular box is centered over the middle of the image, containing the word "Index" in a pink serif font.

---------------	-----------

Aster

Fluffy pompons and long-lasting flowers in the most intense colours. Asters are certainly 'value for money' autumn bloomers. Beside these strong unique selling points, they attract bumblebees and butterflies for a healthier ecosystem.

CONCEPT

SHOWMAKERS®

Showmakers® are the star in the decorative Aster firmament. Thanks to their fully double flowers, with no open centre, they last longer than conventional single-flowered varieties. These stunning flowers are uniform and easy to grow, thanks to their consistent response time. They produce striking blooms against a lush green backdrop, flowering from late summer right through to the end of autumn.

CONCEPT

WILD[®]

WILD[®] Celosia is exactly what the name promises: a pure, untamed plant that grows just like nature intended. With its botanical look and vigorous growth, this unique Celosia not only looks stunning in 12-19 cm pot sizes but also thrives in the garden. Its long flowering period makes it a magnet for bees and butterflies.

CONCEPT

DEEP PURPLE®

Deep Purple® is a proven Celosia favourite with an excellent shelf life and a unique deep purple colour. Looking to brighten up the garden with a fresh, vibrant plant that's also super easy to care for? Then Deep Purple® is the perfect choice! Need we say more? Deep Purple® has been the no. 1 name in the sector for over ten years, and that's no coincidence!

Chrysanthemum

Our MUMS are an extension of your personality, with lots of different varieties you have more than enough options. Pick your favourite colours, shapes and sizes. Chrysanthemums are the stylish personal touch for your interior and garden designs. Besides the trendy appearance, MUMS are little air cleaning machines that will positively impact your health and well-being.

SKYFALL®

Colour your garden in the SKY with Skyfall®, the original hanging garden chrysanthemum. Choose a hanging pot or basket or a wall planter and start vertical gardening! The flowers trail playfully over the pot, creating a lush floral look. Royal van Zanten pioneered trailing garden mums with Skyfall®, and we'd even venture to say that it's been a beloved choice among garden enthusiasts for years. Skyfall® is available in six colours, including this year's latest addition: vibrant orange!

The first and original
trailing garden mum!
